

SEES WORLD CRISIS IN EXCHANGE RISE

Italy's Premier Predicts U. S. Will Be Worst Sufferer if It Comes

AMERICA'S GREAT CHANCE

By the Associated Press
Rome, Feb. 5.—Premier Nitti, in a statement to the Associated Press on the economic situation, said:
"I agree with many points in the letter of Secretary of the Treasury Glass, addressed to the American Chamber of Commerce. Europe must be animated by the spirit of peace. Above all, it is impossible to prolong much further the present economic situation. Italy has set an example, understanding this necessity. We, first among all the nations of Europe, have adopted the heaviest taxation. We are raising taxes sufficient to pay the interest on our debts and also our expenses. For each new debt we have advised new taxation. We are approaching equilibrium of the national budget.

Rise in Exchange
America, however, must understand the situation clearly. An egotistical spirit now animates the nations, the war not having brought that solidarity which should have resulted from trials endured together. The rise in exchange brings about a rapid and continuous augmentation of expenses, causing unrest and strikes, which in their turn diminish production, making the relations between the classes increasingly difficult and dangerous.
It is in the interest of America here that the exchange question should not become worse, but should immediately be solved by international agreement. We must all act together for the safety of all and in my opinion the problem must be attacked immediately and energetically.

United States to Feel It. He Says
"It might at first sight appear that the United States has no immediate interest, but this question of exchange will end by being most injurious to the United States. If steps are not taken in time there will be one of the most colossal crises the world has ever seen, and America will be drawn into it. It is imperative that a condition of equilibrium be re-established immediately.
"The United States Government can render services of the highest value to humanity and to America herself, which would suffer from a worldwide crisis."

PLANES TO EXPLORE TIBET

American Scientists Will Employ Several Handley-Page Machines
Shanghai, Feb. 5.—(By A. P.)—Huge passenger airplanes probably will be used by Roy Chapman Andrews, of the American Museum of Natural History, New York city, in exploring Tibet next summer. He and Mrs. Andrews spent most of 1919 in remote corners of China gathering specimens for the museum. His next expedition will be into the heart of Chinese Turkestan and he will be accompanied by fifty scientists. The cost of this work is estimated at \$500,000.
Plans for the use of airplanes by the expedition have been discussed by Mr. and Mrs. Andrews with the Chinese Government, and it is intended to employ several Handley-Page machines which the government recently acquired. These have a capacity of forty passengers each.

France Land of No Cakes
Paris, Feb. 5.—France, after February 20, again becomes the land of no cakes. The new bread regulations prohibit the making of cakes or pastry wholly or even partly from wheat flour.

RUSSIA MUST PAY DEBTS

Five Countries Exert Pressure in Form of Commercial Ban
Copenhagen, Feb. 5.—(By A. P.)—Denmark, Norway, Sweden, Finland and Holland have agreed they will not resume trade with soviet Russia before Russia's debt to nationals of those countries has been paid or guaranteed, it is learned here.
An invitation to a conference to be held soon at Geneva will be issued to governments of all European countries and the United States, in order to reach an agreement on this question.

Here Is a Message Of Importance To Every Drug Store, Candy Store, Hotel and Restaurant

Concerning

COLONIAL ICE-CREAM

THE Colonial Ice Cream Company is rapidly completing its manufacturing plant at Fourth and Poplar Streets.

It will be the finest and most complete structure of its kind in the country.

About one and a half million dollars will be invested in order to give to the people of Philadelphia the purest and most delicious ice cream that can be made.

Orders from dealers are now being booked.

We have had a staff of salesmen calling on the trade, but we find it almost impossible to call on every one before production begins.

The Colonial Ice Cream Company will devote the entire energy of its organization to these two principles:

Quality of Product Service to Dealers

Quality will be maintained by the use of the finest and purest cream, the best grade cane sugar and the pure juices of luscious fruits.

Manufacturing will be done amid the cleanest and most inviting surroundings in a plant which at all times will be open to the inspection of the public.

Service to dealers will consist of prompt deliveries in motor trucks equipped with modern refrigeration systems.

These trucks are fitted with separate compartments for cream and ice, so that at no time is there any possible chance for the ice cream becoming tainted by brine or ice.

We are, therefore, making this announcement to advise proprietors and managers of drug stores, candy stores, hotels and restaurants who, because of their past experience, are seeking better and more satisfactory connections with an ice cream manufacturer, to communicate with us at once.

We also aim to reach those dealers who want to sell ice cream but have been unable to do so because of the lack of co-operation from manufacturers.

We are prepared to help them and show them how they can install a profitable Ice Cream Department.

A fleet of these refrigeration trucks assures speedy and prompt deliveries to all sections of the city and suburbs.

Dealers who, in the past, were not altogether satisfied with the service which they received are particularly invited to call upon us.

Druggists and candy stores that do not handle ice cream are urged to consult with us about installing an ice cream department.

We propose making Colonial Ice Cream so good, and we intend letting people know about the merits of Colonial Ice Cream in such a forceful and interesting manner, that it will not be long before every family in the city will be asking for Colonial Ice Cream, and they will agree with us that

"Better Ice Cream Can't Be Made"

We, therefore, respectfully suggest to the trade to lose no time in communicating with us.

A telephone call or postal card will immediately bring our representative to see you.
